

Benefits and Conditions

- A free health examination is given on entry to the scheme
- Microchipping and annual booster vaccinations are free
- Consultations, surgical procedures, x-rays and laboratory investigations are all included, provided they are carried out at one of our surgeries
- With our Classic Care and Complete Care the whole treatment fee is covered, weather large or small. All you pay is the discounted cost of medicines and dressings
- Pets Must be healthy to join Classic Care or Complete Care but may remain on the scheme regardless of any illness that develops in later life
- The benefit from free vaccination or referral treatment you must agree to remain on the scheme for at least six months
- Additional pets can join Pal For Life at a reduced rate and each benefits from a 10% reduction in renewal subscription if they have not needed to make use of the scheme
- Our critical care plan is tailored for older pets or those with existing health conditions

How do I join?

It couldn't be easier! Simply make an appointment for your pet's free health check - you'll then be able to fill in the membership and direct debit forms and your subscription will be set up

How do Insurance Policies compare?

These are some of the advantages of the Pal For Life scheme which are not available on commercial insurance policies

- No limit to the amount of cover
- All illnesses are covered. We will not exclude anything that develops during membership, so life-long problems are covered - for life
- Many benefits are included that no insurance policy can cover, such as vaccination, nail clipping, microchipping, minor ailments - and a check up whenever you want
- A range of discounts for non-medical procedures such as neutering, behaviour counselling, anti-season injections, grooming and preventative healthcare
- Discounts for worm and flea preparations and for diets and pet care products
- Discounts for additional pets and for pets that remain healthy

Free treatment and vaccination for life

ORCHARD
VETERINARY CENTRE

Our pets provide us with endless joy and companionship, but the cost of their ongoing healthcare can sometimes be a little overwhelming. Dogs, cats and rabbits all require regular health checks and booster vaccinations and, if they happen to have an accident or develop an illness, the cost of treatment can escalate rapidly.

That's why, here at The Orchard Veterinary Centre, we have developed a safe and reliable way of providing high quality, inclusive veterinary treatment - our Pal For Life scheme.

For a modest subscription, payable by monthly direct debit or annually, your beloved companion is covered for unlimited veterinary treatment at any of our surgeries, for the rest of it's life. This allows you to have peace of mind, knowing that you won't have to worry about unexpected sky-high veterinary bills and your pet will receive all the care and attention it needs - for life!

Free treatment, vaccination and a range of discounts make this the ideal complete health care package for your pets
